

SYNTHETIC FILTER MEDIA

ISO 16890 EPM10 50% (M5)

Features:

- Efficiency following Iso16890: 2016
- Media: Synthetic
- Final pressure drop: 450 Pa
- Max Temperature in continuous service: 100/120°C
- Humidity: 100%RH

SYNTHETIC
MEDIA

Filtrex Code	Description	Width (m)	Length (m)	Thickness (mm)	Media Area (m ²)	Nominal Media velocity (m/s)	Delta Pa
A600/1001	Media roll type 300-SF20 2m x 20m	2	20	22	40	0.25-0.50	25

Advantages

- Long Lifetime
- Low Pressure drop
- High Mechanical resistance
- Impregnation in the core of the media prevents any release of particles > 5 μ
- Reinforced media on clean air side, ensuring the media holding and stability through time
- Self-extinguishing media according to DIN 53438-F1 European standard
