

FILTREX FX150 ELECTRIC FOGGER - 240V

FILTREX CODE M400/1133

FEATURES

Power	Electric Power 220V / 110V
Performance	1170 Watt
Tank Capacity	6 L (1.6 Gal.)
Chemicals	Oil & Water based Chemicals
Flow Rate	60 LPH (16 GPH)
Droplet Size	5 - 50 microns
Spray distance ¹	5-10 meters (16.4-32.7 ft.)
Net Weight	3.7 kg (8.2 lb)
Dimensions	62 x 31 x 17 cm
Features	- 2 speed output controls - Strap for easy carriage

¹ Horizontal, in conditions with no wind

Filtrex's flagship ULV cold fogger, the FX150, is ideal for indoor as well as outdoor applications. With its large 6 liters (1.59 Gal.) tank, this fogger can cover a large area without the need of refilling. Thanks to its fully adjustable droplet size between 5 - 50 microns, this fogger can be used to apply disinfectants, biocides and insecticides in a multitude of locations. With its powerful 1170 Watt motor, this fogger provides years of durability and performance.

Our foggers generate a fog or mist formed of Ultra Low Volume (ULV) droplets of 5-50 microns (μm) in diameter. Studies show that droplets of this size are ideal to tackle pathogens, vector carriers and pests.
