

FILTREX FX20 BATTERY OPERATED ULV FOGGER

FILTREX CODE M400/1135

FEATURES

Power	Electric Power 110V/240V
Performance	170 Watt
Tank Capacity	2.0 L (0.5 Gal.)
Chemicals	Oil & Water based Chemicals
Flow Rate	20-40 LPH, 5-10 GPM
Droplet Size	5 - 50 microns
Spray distance ¹	2-5 meters (6.5-16 ft.)
Net Weight	3.2kg (7.05lb)
Dimensions	47 x 24 x 20 cm
Features	- 1 speed output control - Strap for easy carriage

¹ Horizontal, in conditions with no wind

WHY CHOOSE US?

Battery Operated Machine

Compact, powerful, portable (operate anywhere) and safe (no plugs/wires to trip over).

Special Designed Nozzle

Specially designed to adjust the droplet size between 5-50 microns while controlling the minimum flow rate of 0.25 L/min.

Solution Compatibility

Is compatible with different types of solutions such as water, oil, disinfectants, sanitizers, deodorizers, insecticides and others.

Quiet Cordless ULV Fogger

Generally more quiet than thermal foggers, which is useful in confined areas.

The Upgraded new FX20 Ultra-Low Volume (ULV) fogger is equipped with a more powerful motor providing **3x higher flow rate & 2x higher tank capacity** than any other comparable products on the market.
